## LETTER FROM MARCUS LAM

Director of Student &  
Family Services at NHUSD

*This was my first year, supervising the work of the Family Center, as the Director of Student and Family Services at New Haven Unified School District. By having one office for centralized enrollment and attendance, we now quickly adapt to student and family needs, and provide a unified voice to our community.*

*We continue to reach more students and families. Surveys demonstrate that the supports we provided to promote behavioral health in our schools and community have been a success, and our wrap-around services for unhoused and migrant youth have increased graduation rates. I am proud of the work of the prior year and the work ahead as we move forward with our regional partners and community.*

Sincerely,  
Marcus Lam, July 2022

**In 2012-13, the Union City Family Center began with 10 partners and 500 clients.**

**We currently have more than 40 partners. In 2021-22, we provided more than 5000 clients with high impact services.**

## LETTER FROM JENNIFER HAWKINS

Coordinator of Union City  
Family Center

*This year was one of the most challenging and impactful of my eight years at the family center. In just two years, we increased our reach from 3500 to more than 5000+ individuals. In response to the COVID crisis, we worked with partners to provide vaccination and booster clinics, and cash relief grants. We exponentially expanded our afterschool program, from **just under 300 to nearly 800** students. In 2022-23, we'll be celebrating ten years of engaging, supporting and uplifting our community. We'll be sharing opportunities for our partners to get involved and we hope you'll join us.*

Sincerely,  
Jennifer Hawkins, July 2022
